KEEP THE YARRA VALLEY FRUIT FLY FREE

PREVENTION WHAT CAN I DO?

MAKE MY COMMUNITY AWARE

Teach others in the community about the importance of garden hygiene, prevention & reporting

REDUCE THE RISKS ON MY LAND & PUBLIC LAND

Remove unmanaged host plants

Prune all host plants to a height you can easily net & harvest

Prevent infested fruit entering your property & the Yarra Valley

Continually pick & remove all ripe fruit to prevent QFF being attracted to your crop

Monitor regularly with traps and inspect all fruit—check for larvae

Report any suspect damage

Queensland Fruit Fly (QFF)

What do I do if I suspect Queensland fruit fly?

QFF traps

QFF bait

QFF netting

QFF damaged fruit

Notify the Yarra Valley coordinator. Use bait, traps and netting.

Pick all infested fruit, BOIL or FREEZE fruit to kill all the larvae.

Dispose of treated fruit in a sealed bag into the rubbish bin.

-DO NOT COMPOST-

STOP THE LIFECYCLE. Trap adult fruit flies. PREVENT THE NEXT GENERATION.

Prevent any movement of infested fruit.
